BIO HATCH

Disinfectant – Sanitizer

DESCRIPTION

BIO HATCH is a 7.5% active quaternary compound with a low foam formulation intended for use in poultry houses, hatcheries, and other animal quarters to effectively disinfect and deodorize the surfaces after being cleaned with a conventional cleaner. BIO HATCH is also approved for use in food processing plants, dairy, and cheese plants. It is an effective product in eliminating cross contamination of bacteria.

DIRECTIONS

BIO HATCH is for use in food processing plants, dairy and cheese plants.

Concentration: To Sanitize: 1 oz. per 4 gallons water (150ppm active)

To Disinfect: ½ oz. per 1 gallon water (Surface should remain wet for a minimum of 10 minutes).

FEATURES

- Authorized by USDA for use in food establishments under Code D2

SAFETY INFORMATION

UTILIZE APPROPRIATE PERSONAL PROTECTIVE EQUIPMENT AS PER SDS.

HANDLE AND STORE AS INDICATED ON PRODUCT LABEL.

IF ON SKIN: In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Get medical attention if irritation persists. Wash clothes before reusing.

IF IN EYES: In case of contact, immediately flush with plenty of water for at least 15 minutes. Get immediate medical attention.

IF SWALLOWED: Drink large quantities of water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Get immediate medical attention.

IF INHALED: Immediately move to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. If breathing is difficult, give oxygen. Get immediate medical attention.

Consult your Safety Data Sheet for additional safety information.
