112 CONCENTRATE™

INGREDIENTS	.18% titratable iodine.
PRODUCT USES	112 Concentrate is used to formulate one-step iodine sanitizing hand cleaners. It is the base for MW/F and 2K-V, which are USDA E-2 rated products for the food and beverage industry and other institutions requiring the use of antimicrobial hand soaps.
DESCRIPTION	112 Concentrate contains a patented free iodine delivery system. The total iodine content of 112 is uniquely low, but it yields a high free (active) iodine content in a finished hand cleaner. It is designed to maximize mildness to skin. 112 has all emollients and emulsifiers built in, such that formulating the finished hand soaps requires only the additional of water and stabilizers.
TYPICAL PROPERTIES	<p>Appearance Dark brown viscous liquid</p> <p>Specific Gravity @ 60°F 1.07</p> <p>Pounds per Gallon 8.9 lbs.</p> <p>Brookfield Viscosity 150 cps to 300 cps @ 77°F</p> <p>pH (as is) 6.9 to 7.5</p> <p>Note: Concentrate has a 90-day shelf life.</p>
PACKAGING	260# (30 gallon) polyethylene drum.
