

## 4QUAT

**DESCRIPTION** 4QUAT is a very effective four-chain quaternary sanitizer designed for effective environmental surface sanitation in today's food processing industry. It is EPA Registered and USDA Authorized for use in meat and poultry plants. It contains four forms of quaternary for effectiveness over a wide range of bacterial, viral, and other micro-organic contaminants including Listeria. It continues to be effective on soils with organic soil tolerance.

**DIRECTIONS** All food contact surfaces should be cleaned and rinsed before 4QUAT is applied. As a sanitizer, it is safe for food contact surfaces. Surfaces should remain wet for at least 60 seconds followed by air drying. Do not rinse with water. (Consult your representative for specific applications and concentrations in your operation.)  
Concentration: 1 to 2.67 oz. per 4 gallons of water (150 to 400 ppm quaternary assets).

**SAFETY INFORMATION** UTILIZE APPROPRIATE PERSONAL PROTECTIVE EQUIPMENT AS PER SDS.  
HANDLE AND STORE AS INDICATED ON PRODUCT LABEL.

IF ON SKIN: In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Get medical attention. Wash clothes before reusing.

IF IN EYES: In case of contact, immediately flush with plenty of water for at least 15 minutes. Get immediate medical attention.

IF SWALLOWED: Promptly consume a large quantity of milk, egg whites, gelatin solution or – if these are not available – drink large quantities of water. Avoid alcohol. Do not induce vomiting. Never give anything by mouth to an unconscious person. Get immediate medical attention.

IF INHALED: Immediately move to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. If breathing is difficult, give oxygen. Get immediate medical attention.

Consult your Safety Data Sheet for additional safety information.

FOR INDUSTRIAL USE ONLY.
