

## ALKA-CLEAN ADDITIVE 1500

### Concentrated De-foaming Surfactant for Addition to Cleaning Solutions

DESCRIPTION	ALKA-CLEAN ADDITIVE 1500 is a concentrated blend of de-foaming surfactants designed to provide de-foaming properties while relieving surface tension to improve soil penetration. ALKA-CLEAN ADDITIVE 1500 will de-foam in solution temperatures of 80° to 210°F. It is free rinsing, reduces caustic carryover in bottle washers and is ideal for addition to CIP cleaning solutions in dairy and food processing facilities.
DIRECTIONS	<p>ALKA-CLEAN ADDITIVE 1500 is a concentrated surfactant for caustic cleaning in dairy and food processing facilities and in bottle washing solutions.</p> <p>Concentration:     <u>Bottle Washing</u>:     0.1 to 0.3% ALKA-CLEAN ADDITIVE 1500 with 1.5 to 3.5% caustic soda.</p> <p>                          <u>As Cleaning Additive</u>: 1 to 2 oz. per 35 gallons of cleaning solution.</p> <p>Temperature:       80° to 210°F depending on specific cleaning application.</p> <p>Cleaning Time:     As required by individual application.</p>
FEATURES	<ul style="list-style-type: none"><li>• Low foam/de-foaming surfactant rinse aid</li></ul>
BENEFITS	<ul style="list-style-type: none"><li>• Excellent de-foaming</li><li>• Improved rinsing/dispersion</li></ul>
SAFETY INFORMATION	<p>UTILIZE APPROPRIATE PERSONAL PROTECTIVE EQUIPMENT AS PER SDS.</p> <p>HANDLE AND STORE AS INDICATED ON PRODUCT LABEL.</p> <p><u>IF ON SKIN</u>: In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Get medical attention if irritation persists. Wash clothes before reusing.</p> <p><u>IF IN EYES</u>: In case of contact, immediately flush with plenty of water for at least 15 minutes. Get immediate medical attention.</p> <p><u>IF SWALLOWED</u>: Drink large quantities of water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Get immediate medical attention.</p> <p><u>IF INHALED</u>: Immediately move to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. If breathing is difficult, give oxygen. Get immediate medical attention.</p> <p>Consult your Safety Data Sheet for additional safety information.</p>
