

CONVEYOR LUBE #2

Conveyor Chain Lubricant

DESCRIPTION CONVEYOR LUBRICANT #2 is a water soluble, greaseless lubricant for Dairies, Bottlers, and Food processing plant conveyors. It protects conveyors and chains from friction, wear, and corrosion.

DIRECTIONS CONVEYOR LUBRICANT #2 is a concentrated product and may be diluted up to 1 part to 200 parts of water. Concentration of 1 to 75 or 1 to 100 is recommended for most applications (1 to 2 oz. per gallon of water). It may be used as a drip, pass through or, for the greatest economy, through an automated spray system with solenoids at each spray. Where other lubricants have been used, thoroughly rinse the system before installing.

FEATURES

- Authorized by USDA for use in federally inspected meat and poultry plants

BENEFITS

- Non-toxic
- Non-staining
- Odorless

SAFETY INFORMATION UTILIZE APPROPRIATE PERSONAL PROTECTIVE EQUIPMENT AS PER SDS.
HANDLE AND STORE AS INDICATED ON PRODUCT LABEL.

IF ON SKIN: In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Get medical attention if irritation persists. Wash clothes before reusing.

IF IN EYES: In case of contact, immediately flush with plenty of water for at least 15 minutes. Get medical attention.

IF SWALLOWED: Drink large quantities of water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention.

Consult your Safety Data Sheet for additional safety information.
