

IDC 20TM CONCENTRATE

INGREDIENTS	20% minimum titratable iodine from alpha-(p-Nonylphenyl) omega hydroxypoly (oxyethylene)-iodine complex.
PRODUCT USES	IDC 20 Concentrate is used only for the manufacture of animal health drugs including, but not limited to, sanitizing teat dips, antiseptic wound sprays and medicated animal shampoos. Formulators must obtain the necessary approvals from the Food and Drug Administration for any products claiming to treat or prevent animal diseases. Note: IDC 20 Concentrate is available for sale only to formulators with FDA authorized plants.
DESCRIPTION	IDC 20 Concentrate is a cost effective, cold process iodophor with a stable iodine content and low viscosity. These benefits make it more economical and easier to formulate than competitive iodophors.
TYPICAL PROPERTIES	Appearance Dark brown viscous liquid Specific Gravity @ 77°F 1.327 Pounds per Gallon 11.05 lbs. Viscosity 1,920 cps @ 50°F pH Less than 1
PACKAGING	600# (55 gallon) polyethylene drum.

***Typical of average lots.**
