

## MEMBRANE ADDITIVE

### Concentrated Non-Ionic Surfactant

**DESCRIPTION** MEMBRANE ADDITIVE is a concentrated surfactant that improves the detergency and wetting properties of specialty cleaning formulations and is especially effective in the alkaline cleaning step of membrane cleaning. MEMBRANE ADDITIVE is soluble in both alkaline and phosphoric acid cleaning solutions providing exceptional performance in hard surface cleaning applications.

**DIRECTIONS** MEMBRANE ADDITIVE is a concentrated surfactant to improve detergency and wetting properties of cleaning solutions.

Concentration: 0.1 to 0.25% solution depending on soil load.

Temperature: Normal cleaning solution ranges of 110° to 150°F.

Cleaning Time: 10 to 30 minutes for most soils as required.

**SAFETY INFORMATION** UTILIZE APPROPRIATE PERSONAL PROTECTIVE EQUIPMENT AS PER SDS.  
HANDLE AND STORE AS INDICATED ON PRODUCT LABEL.

IF ON SKIN: In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Get medical attention if irritation persists. Wash clothes before reusing.

IF IN EYES: In case of contact, immediately flush with plenty of water for at least 15 minutes. Get immediate medical attention.

IF SWALLOWED: Drink large quantities of water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Get immediate medical attention.

IF INHALED: Immediately move to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. If breathing is difficult, give oxygen. Get immediate medical attention.

Consult your Safety Data Sheet for additional safety information.
