

## PREMIUM PLUS ALKALI NP

### Heavy-Duty, Phosphate-Free, Free-Rinsing Caustic Cleaner

#### DESCRIPTION

PREMIUM PLUS ALKALI NP is a heavy-duty, phosphate-free, alkaline liquid cleaner containing a unique package of detergent surfactants. This product is formulated to reduce surface tension, improve soil penetration, and control mineral deposits. It has superior rinsing properties for use in CIP, HTST, machine egg washing applications, and boil-out cleaning operations.

Method:	Soak, circulation, spray and boil-out and mechanical egg washing. After cleaning, post-rinse with potable water Sanitize as required.
Concentration:	Evaporator, Dryer, & HTST Equipment: Concentrations from 1 to 8 oz per gallon of water, depending on the system.
Boil Out:	To clean equipment (remove grease, oils, burned residues, ect.) charge with approximately 4 to 6 oz per gallon of water at 150 to 200 degrees F and mechanical agitation.
Egg Wash:	Depending upon the degree of soil, use 1/2 to 2 oz per gallon of water. For best cleaning results, use at temperatures of 100 to 125 degrees F.
Soak Cleaning:	To clean equipment (remove grease, oils, burned residues, etc.), charge with approximately 4 to 6 oz per gallon of water at 150 to 200 degrees F and mechanical agitation.

#### FEATURES

- High-strength caustic 85% NaOH (50%)
- Combination chelation package
- Special rinse additive
- Phosphate-Free detergent

#### BENEFITS

- Enhanced rinsing properties
- Hard water tolerance
- High alkalinity for tough soils
- Will not contribute to phosphate loading in effluent

#### SAFETY INFORMATION

IF ON SKIN: In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash clothes before reusing.

IF IN EYES: In case of contact, immediately flush with plenty of water for at least 15 minutes. Get immediate medical attention.

IF SWALLOWED: Drink large quantities of water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Get immediate medical attention.

IF INHALED: Immediately move to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. If breathing is difficult, give oxygen. Get immediate medical attention.

Consult your Safety Data Sheet for additional safety information.
