

SOFT METAL CLEANER

Liquid Soft Metal Cleaner

DESCRIPTION	SOFT METAL CLEANER is a liquid low foaming silicated formula specifically designed for cleaning and removing soils from soft metal non-stainless steel surfaces, such as continuous churns, case wash systems, aluminum pan washing, smokers and soft metal freezers by CIP, immersion, spray or soak cleaning operations.	
DIRECTIONS	<u>Method:</u>	Rinse to remove loose soil from surfaces. Soak, spray, circulation, and immersion cleaning. After cleaning, rinse with potable water. Sanitize as required. Use as directed.
	<u>Concentration:</u>	Recommended concentrations for cleaning most soils is 1/2 to 4 oz. of SOFT METAL CLEANER per gallon of water, depending on soil load and method of cleaning. After cleaning, rinse with potable water. Sanitize as required.
	<u>Temperature:</u>	130 to 150 degrees F. Temperature should be maintained above 130 F for maximum cleaning effectiveness. Drain and rinse with 130 F water. Do not exceed 150 F.
	<u>Cleaning Time:</u>	10 to 30 minutes or as required by soil load and method of cleaning.
FEATURES	<ul style="list-style-type: none">• Highly concentrated• Safe on stainless and non-stainless steel surfaces• Formulated with corrosion inhibitors, surfactants, and water conditioners	
BENEFITS	<ul style="list-style-type: none">• Non-foaming in CIP applications• Hard water tolerance - combined with high concentration - improves cost efficiency	
SAFETY INFORMATION	<p><u>IF ON SKIN:</u> In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Get medical attention. Wash clothes before reusing.</p> <p><u>IF IN EYES:</u> In case of contact, immediately flush with plenty of water for at least 15 minutes. Get immediate medical attention.</p> <p><u>IF SWALLOWED:</u> Drink large quantities of water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Get immediate medical attention.</p> <p><u>IF INHALED:</u> Immediately move to fresh air. If not breathing, give artificial respiration, preferable mouth-to-mouth. If breathing is difficult, give oxygen. Get immediate medical attention.</p> <p>Consult your Safety Data Sheet for additional safety information.</p>
