

KLARAID 10™

Coagulant for Water Treatment Product Number 1768

Purpose and Use

Klaraid 10™ is a high-performance liquid polyaluminum chloride and organic polymer coagulant that generally offers superior clarification in either potable or wastewater. The aluminum in Klaraid 10™ is highly charged, enabling less of it to do more. Klaraid 10™ is especially designed to achieve extremely high levels of turbidity removal.

Benefits

- Reduced sludge
- Minimized pH adjustment
- Longer filter runs
- Superior finished water quality
- Optimized cold water performance

Directions for Use

Consult your DeLaval representative for specific use procedures and concentrations.

For use in food and dairy facilities in accordance with product label and documented use applications. Consult your DeLaval representative for guidance.

Safety Information

IF ON SKIN

In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash clothes before reusing. Get immediate medical attention.

IF IN EYES

In case of contact, immediately flush with plenty of water for at least 15 minutes. Get immediate medical attention.

IF SWALLOWED

Sip a glass of water if able to swallow. Do not induce vomiting. Never give anything by mouth to an unconscious person. Get immediate medical attention.

IF INHALED

Immediately move to fresh air. If not breathing, give artificial respiration, preferable mouth-to-mouth. If breathing is difficult, give oxygen. Get immediate medical attention.

Consult your Safety Data Sheet for additional safety information
