

BEEF WASH SPECIAL

Non Sodium Alkaline Hide on Carcass Wash

DESCRIPTION	Beef Wash Special is a heavy-duty alkaline and high-penetrating cleaning agent used to reduce microbial load on hides. This product is specifically formulated for use in carcass wash applications when maximum soil removal, reduced sodium discharge and superior rinsability are necessary.
DIRECTIONS	Beef Wash Special is formulated to remove difficult soils in carcass wash applications Procedure: Apply through proper spray cleaning equipment Concentration: 1.0 - 3.0 oz/gl depending on soil load Approximately 0.4% to 1.2% alkalinity as KOH, approximately 0.3% to 0.8% alkalinity as NaOH Temperature: Ambient water temperature Cleaning Time: As required by soil load
FEATURES	<ul style="list-style-type: none">• Listed in FSIS 7120.1 directive for carcass wash applications• Provides both cleaning and bacterial removal in one step• Causes no hide damage with use• Eliminates need for post rinse• Elevated rinsability• Highly potassium based product• Built product with greater efficacy
BENEFITS	<ul style="list-style-type: none">• Complies with USDA guidelines and approvals• Simplifies feed system and use of multiple products• Creates no changes in dressing process• Increased economic benefit from hide sales• Decreases hide to meat cross-contamination potential• Cuts water use when a post rinse is present at the plant• Reduces environmental impact due to elimination of sodium discharge• Lessens chemical usage as compared to 50% NaOH
SAFETY INFORMATION	UTILIZE APPROPRIATE PERSONAL PROTECTIVE EQUIPMENT AS PER SDS. HANDLE AND STORE AS INDICATED ON PRODUCT LABEL. <u>IF ON SKIN:</u> In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Get immediate medical attention. Wash clothes before reusing. <u>IF IN EYES:</u> In case of contact, immediately flush with plenty of water for at least 15 minutes. Get immediate medical attention. <u>IF SWALLOWED:</u> Drink large quantities of water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Get immediate medical attention. <u>IF INHALED:</u> Immediately move to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. If breathing is difficult, give oxygen. Get immediate medical attention. Consult your Safety Data Sheet for additional safety information.

CONTAINS POTASSIUM HYDROXIDE
