

DeLaval Drain Gel

DESCRIPTION

DeLaval Drain Gel is a patented blend of iodine, non-ionic surfactants and blocking agents. It is a slow-releasing iodine powder with moisture sensitivity, releasing approximately 1 to 2 ppm iodine until equilibrium is reached.

DeLaval Drain Gel is patented under U.S. Patent Number 4,911,859.

This product is economical since it is active only when adequate water is present for dissolution. It is suitable for use in food plants as a powder-type cleaner and water deodorizer for inside drains, on drain gates, and underneath open weave floor mats. It may also be used to deodorize condensate water and any other standing water in food plants or other facilities. It is adequate for the control of most odors that occur from condensate and standing water.

SAFETY INFORMATION

UTILIZE APPROPRIATE PERSONAL PROTECTIVE EQUIPMENT AS PER SDS.

HANDLE AND STORE AS INDICATED ON PRODUCT LABEL.

IF ON SKIN: In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Get medical attention if irritation persists. Wash clothes before reusing.

IF IN EYES: In case of contact, immediately flush with plenty of water for at least 15 minutes. Get immediate medical attention.

IF SWALLOWED: Drink large quantities of water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Get immediate medical attention.

IF INHALED: Immediately move to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. If breathing is difficult, give oxygen. Get immediate medical attention.

Consult your Safety Data Sheet for additional safety information.
