

DeLaval Drain Links

DESCRIPTION A blend of iodine, surfactant and gel-agents contained in a mesh bag. This product is designed for use in drains of all types, including those with flowing water. Upon sufficient exposure to water, high levels of iodine and detergent are released to clean and deodorize standing water in drains, drain traps and condensate trays. Iodine and detergent released into condensate and drip pans will prevent clogging from soil buildup.

SAFETY INFORMATION UTILIZE APPROPRIATE PERSONAL PROTECTIVE EQUIPMENT AS PER SDS.
HANDLE AND STORE AS INDICATED ON PRODUCT LABEL.

IF ON SKIN: In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Get medical attention if irritation persists. Wash clothes before reusing.

IF IN EYES: In case of contact, immediately flush with plenty of water for at least 15 minutes. Get immediate medical attention.

IF SWALLOWED: Drink large quantities of water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Get immediate medical attention.

IF INHALED: Immediately move to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. If breathing is difficult, give oxygen. Get immediate medical attention.

Consult your Safety Data Sheet for additional safety information.
