

ECONOSAN ACID SANITIZER

Prototype

INGREDIENTS	Decanoic Acid.....	3.0%
	Nonanoic Acid	3.0%
	Phosphoric Acid	8.5%
	Sulfuric Acid	9.5%
	Propionic Acid.....	10.0%

PRODUCT USES Econosan Acid Sanitizer is used to sanitize hard, non-porous surfaces throughout food processing facilities. Use on storage tanks, vats, processing surfaces, utensils, and similar equipment. Circulate through CIP systems and liquid filling equipment where it will both sanitize and acidify surfaces.

DESCRIPTION Econosan Acid Sanitizer is a concentrated, non-iodine acid sanitizer for CIP, COP and non-circulation applications. This product has reduced phosphates due to its unique blended acid formula. It provides effective germicidal action on a broad range of microorganisms including gram positive and gram negative bacteria. Econosan Acid Sanitizer's 1 oz. to 6 gallon use rate provides a low pH that assures rapid bacterial action while removing water scale and mineral buildup. Econosan Acid Sanitizer leaves equipment surfaces in an acidic range that lengthens the life of stainless steel parts.

TYPICAL PROPERTIES	Appearance	Clear, colorless, liquid
	Odor.....	Pungent
	Pounds per Gallon	9.62 lbs.
	pH	Less than 1.9
	Foam	Low
	Specific Gravity.....	1.155

FORMULA	126+ Concentrate	46.0% w/w
	Phosphoric Acid 75% food grade	11.3% w/w
	Sulfuric Acid 60°Be food grade.....	12.20% w/w
	Water	30.5%
	Total	100.0%

***Typical of average lots.**
