

FLASH

DESCRIPTION	FLASH is a mid-range alkaline cleaning compound. It is an orange powder that changes to green upon contact with water as an indicator of contact with surfaces being cleaned. FLASH has moderate- to high-foaming properties and is biodegradable. Do not use on soft metals.
DIRECTIONS	Concentration: <u>High Pressure Cleaning:</u> 1/4 to 4 oz. per gallon of water. <u>Foam Cleaning:</u> 6 to 10 lbs. per 50 gallons of water depending upon the type and degree of soil. <u>Floors:</u> Sprinkle onto wet floor and allow to soak. Then scrub and rinse. Usage amounts will vary with type and degree of soil. Temperature: 120° to 180°F. Consult your representative for specific applications and concentrations in your operation.
FEATURES	Authorized by the USDA for use in federally inspected meat and poultry plants
SAFETY INFORMATION	UTILIZE APPROPRIATE PERSONAL PROTECTIVE EQUIPMENT AS PER SDS. HANDLE AND STORE AS INDICATED ON PRODUCT LABEL.

IF ON SKIN: In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Get medical attention. Wash clothes before reusing.

IF IN EYES: In case of contact, immediately flush with plenty of water for at least 15 minutes. Get immediate medical attention.

IF SWALLOWED: Drink large quantities of water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Get immediate medical attention.

IF INHALED: Immediately move to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. If breathing is difficult, give oxygen. Get immediate medical attention.

Consult your Safety Data Sheet for additional safety information.

FOR INDUSTRIAL USE ONLY.

DANGER!

CORROSIVE. CONTAINS CAUSTIC SODA.
