

RQ Floor Powder III™

Powdered Quat Floor Treatment Product Number 2545

Purpose and Use

RQ Floor Powder III™ is a floor treatment product containing cationic surfactant, intended primarily for use in the meat, poultry, dairy, and food processing industries. This water activated, time released detergent is specifically formulated to improve environmental sanitation and control soil buildup on floors. When wet, will not cause slippage.

How RQ Floor Powder III Works

RQ Floor Powder III™ is ideal for broadcast application with an economical 1 lb. per 100 square feet recommended coverage. RQ Floor Powder III granules crush easily to release odor control ingredients, is Phosphorus Free and readily rinses into floor drains. Use wherever odor control can be a problem.

RQ Floor Powder III™ is designed for use on all non-food contact surfaces including processing floor areas: production, storage, and common areas. Apply this product in such a way to avoid food contact surfaces.

RQ Floor Powder III™ is safe and effective under the intended conditions of use as outlined on the product label or specified in a Sanitation Standard Operation Procedure (SSOP) as part of a HACCP Program.

Benefits

- Highly cost effective when compared with other floor treatment products
- Controls odor
- Improves floor traction
- Reduced risk of Listeria contamination
- Effective intervention control

Discussion

RQ Floor Powder III™ contains a unique surfactant for improved performance and odor control. It is especially easy to apply due to its free flowing granular form. The distinctive blue color ensures this product is easy to distinguish from other materials.

Features

- Energy Savings
- Enhanced Performance
- Odor Control
- Safety
- Easily distinguishable
- Simple to apply

Directions for Use

RQ Floor Powder III™ is a mild, ready-to-use floor cleaner which contains a blend of proprietary products and cationic surfactants. Simply sprinkle a light coating on a dampened floor. Very effective in high traffic areas and around drains. Also, can be used in place of liquids in doorway footbath mats.

Method

Quaternary ammonium floor cleaner, for use on non-food contact surfaces.

Concentration

1lb per 100 square feet recommended coverage.

For use in food and dairy facilities in accordance with product label and documented use applications. Consult your DeLaval representative for guidance.

Safety Information

IF ON SKIN

In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash clothes before reusing. Get immediate medical attention.

IF IN EYES

In case of contact, immediately flush with plenty of water for at least 15 minutes. Get immediate medical attention.

IF SWALLOWED

Sip a glass of water if able to swallow. Do not induce vomiting. Never give anything by mouth to an unconscious person. Get immediate medical attention.

IF INHALED

Immediately move to fresh air. If not breathing, give artificial respiration, preferable mouth-to-mouth. If breathing is difficult, give oxygen. Get immediate medical attention.

Consult your Safety Data Sheet for additional safety information
