

Delasan™ MP

Antimicrobial Solution for Meat, Poultry, and Seafood

Product Number 1771

Delasan™ MP is a peroxyacetic acid based antimicrobial developed for use in Federally Inspected meat, poultry, seafood, ready-to-eat as well as fruit and vegetable processing locations. When used as directed, it will help to reduce contamination and cross-contamination of edible food products

Benefits

- Versatility of a single pathogen intervention product for multiple processes within your facility
- Ideal for pathogen intervention
- Reduces cross contamination
- Effective in a variety of applications and customer needs
- Does not interfere with water treatment systems
- Eliminates need for additional pathogen intervention technologies on premise
- Non corrosive to stainless steel
- Compatible with food production equipment

Features

- Complies with the FDA and FSIS regulations (FCN 887, 908 and 1132)
- May be used in a water bath to thaw frozen meat or poultry products prior to further processing
- Flexible application
- Broad spectrum of uses and applications
- Proven, highly effective antimicrobial
- Environmentally friendly

Properties

- Appearance Light to dark amber liquid
- Total alkalinity..... 30.2 - 33.4 %w/w Na₂O
- pH (1% w/w in DI water) 12.0 – 13.2
- Hardness tolerance up to 450 ppm

Directions for Use

Method

Delasan MP may be used in sprays, dip tanks, wash tanks, brush washers, etc..

Concentration

Meat Applications: Mix Delasan MP at more than 1.8 oz per 6 gallons of water to provide 400 ppm of PAA. Apply solution to carcass using spray application. Spray at 100-200 psi at 110-120° F and allow to remain on object for 1 to 2 minutes

Poultry Applications: This additive is used as an antimicrobial agent up to 1000 ppm on pre-evisceration uses.

Seafood Applications: The maximum concentration allowed is 190 ppm as active PAA. Residual activity may be reached by diluting this product by 1 oz per 5.6 gallons of water v/v.

Ready-To-Eat: Delasan MP may be used up to 220 ppm as PAA (1.7 fl. Oz. per 10 gallons) as an antimicrobial water or brine treatment in the preparation and cooling of cooked and formed (Ready-To-Eat) meat and poultry products.

Fruit and Vegetable Washing: Delasan MP may be applied up to 3.8 fl. oz per 10 gallons of water (equivalent to 500 ppm active PAA) in water or ice that contacts non-raw agricultural commodities (fresh-cut and/or further processed fruits and vegetables).

Consult your DeLaval Cleaning Solutions representative for questions on specific applications.

Safety Information

IF ON SKIN OR CLOTHING

Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

IF IN EYES

Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses if present after the first 5 minutes, and then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice.

IF SWALLOWED

Call a Poison Control Center or doctor immediately for treatment advice. Have person sip glass of water if able to swallow. Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED

Move person to fresh air. If person is not breathing, call 911 or an ambulance then give artificial respiration, preferably by mouth. Call a Poison Control Center or doctor for treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.
