

# BEEF WASH SPECIAL

## Non-Sodium Alkaline Hide-on Carcass Wash

Product Number 4392

Beef Wash Special is a heavy-duty alkaline and high-penetrating cleaning agent used to reduce soil load on hides. This product is specifically formulated for use in carcass wash applications when maximum soil removal, reduced sodium discharge, and superior rinsability are necessary.

### Benefits

- Complies with USDA guidelines and approvals
- Simplifies feed system and use of multiple products
- Creates no changes in dressing process
- Does not damage the hide during use
- Does not cause slippage during hide removal, ensuring smooth dressing operation
- Increased economic benefit from hide sales
- Decreases hide to meat cross-contamination potential
- Cuts water use when a post rinse is present at the plant
- Reduces environmental impact due to elimination of sodium discharge
- Lessens chemical usage as compared to 50% NaOH

### Features

- Listed in FSIS 7120.1 directive for carcass wash applications
- Provides both cleaning and bacterial removal in one step
- Eliminates need for post rinse
- Elevated rinsability
- Potassium based product
- Built product with greater efficacy

### Properties

- Appearance ..... Colorless Liquid
- pH (1% w/w in DI water) ..... 11.6 – 14.1

### Directions for Use

#### Method

Apply through proper spray cleaning equipment.

#### Concentration

1.0 - 3.0 oz/gal depending on soil load. Approximately 0.4% to 1.2% alkalinity as KOH, approximately 0.3% to 0.8% alkalinity as NaOH

**Consult your DeLaval Cleaning Solutions representative for questions on specific applications.**
