

KSolve™

Liquid Solvent Cleaner

Product Number 2153

KSolve™ is a blue liquid alcohol-based solvent and cleaner. This product is ideal for cleaning soils from floors and walls in freezers and other low temperature surfaces. KSolve™ is also ideal for adhesive and glue soil cleaning. It can also be used for general cleaning of product contact surfaces when diluted in other neutral or alkaline cleaners followed with a potable water rinse. Use KSolve™ undiluted for cleaning equipment such as electronic equipment or devices that need to be hand cleaned and are not water tolerant, or for other non-product contact surfaces. KSolve™ may also be added to other approved cleaning products to prevent cleaning solution from freezing quickly in sub-freezing temperatures.

Benefits

- Effective for adhesives and glue soil removal
- Cleaning of electronic equipment
- Stable in other neutral and alkaline cleaners for cleaning product contact surfaces
- Prevent freezing of other water based cleaning solutions

Features

- Solvent based cleaner

Properties

- Appearance Clear blue liquid

Directions for Use

Method and recommended coverage

KSolve™ can be used for soak, spray and scrubbing.

Concentration

General cleaning: use KSolve™ undiluted or add to other neutral or alkaline cleaners at 1 to 10 oz. per gallon of water. Rinse with potable water after use.

For non-product contact surfaces: use KSolve™ undiluted for cleaning equipment such as electronic equipment or devices that need to be hand cleaned and are not water tolerant.

For the removal of adhesives and glues: spray on equipment and allow to soak into glue. Remove by wiping or scraping. Follow use with a potable water rinse.

Consult your DeLaval Cleaning Solutions representative for questions on specific applications.

Safety Information

IF EXPOSED OR CONCERNED

Call a Poison Control Center or doctor for treatment advice.

IF SWALLOWED

Call a Poison Control Center or doctor/physician if you feel unwell. Rinse mouth.
