

UltraGlimt™ Egg Wash

Caustic Cleaner

Product Number 2018

UltraGlimt™ Egg Wash is a high alkaline cleaner primarily designed for the organic egg cleaning and grading industry. UltraGlimt™ Egg Wash is approved by the Organic Materials Review Institute (OMRI). This product is manufactured with ingredients generally recognized as safe (GRAS) by the US FDA. UltraGlimt™ Egg Wash is designed to achieve efficient cleaning and quick rinsing of shell eggs which, in turn, leads to extremely low dirty return numbers and proper. For maximum performance, UltraGlimt™ Egg Wash is recommended to be used to maintain a minimum pH of 11.0. The product is also compatible with a variety of DeLaval defoamers.

Benefits

- Used for organic egg washing
- Efficient cleaning and fast drying
- High alkalinity for tough soils
- Extremely low dirty return
- Gentle on shell eggs and tough on soil

Features

- Organic Materials Review Institute (OMRI) approved
- High-strength caustic
- No foam

Properties

- Appearance Clear, colorless liquid
- Total alkalinity..... 48.5 – 52.0 % as NaOH
- Conform with FCC standards

Directions for Use

Method

Shell egg washing as well as soak, circulation, spray and boil out cleaning.

Concentration

Shell Egg Processing

Depending on soil load use 0.5 oz to 2.0 oz per gallon of water to maintain a minimum pH of 11.0 throughout production. Maintain the cleaning solution temperature between 100°F to 130°F

Soak, circulation, spray and boil out cleaning

Concentration: 0.5 oz to 8.0 oz of UltraGlimt™ Egg Wash per gallon of water depending on soil load. Do not allow surfaces to dry during cleaning. Maintain the cleaning solution temperature between 120°F to 200°F.

Consult your DeLaval Cleaning Solutions representative for questions on specific applications.
