- Phosphoric Acid 15.2 – 16.8 % w/w

Directions for Use

Method

Spray, soak, and CIP applications in food and dairy processing systems. ZZZ™ Disinfectant is a glove sanitizer. After cleaning and rinsing equipment, sanitize just prior to use with 12.5 to 25 ppm titratable iodine

Concentration

1 oz. per 5 gallons (1.5 mL/L) to provide 25 ppm active

Temperature: 41° to 110° F (5° to 43° C). Do not heat iodine solution above 120° F (49° C).

Contact Time: 1 to 10 minutes depending on the application.

Consult your DeLaval Cleaning Solutions representative for questions on specific applications.

Safety Information

IF ON SKIN (OR CLOTHING)

Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

IF IN EYES

Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes. Then continue rinsing. Call a Poison Control Center or doctor for treatment advice.

IF SWALLOWED

Call a Poison Control Center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person..

IF INHALED

Move person to fresh air. If person is not breathing, call 911 or ambulance, and then give artificial respiration, preferably mouth-to-mouth, if possible. Call a Poison Control Center or doctor for treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.
